The Futrell Fellowship Helps Students Bridge the Gap from Academic World to the Professional World

*Leader in Unified Communications
Helps Local Students Evolve*

LIVONIA, MI — August 25, 2016 — Technology Solutions, a leader in unified communications announced today that they are running their Futrell Fellowship Program for yet another year. The Futrell Fellowship is a business program that is funded by Technology Solutions, which is aimed at college students that are looking to make the transition into the professional world with all of the skills and tools they need to enter the professional world successfully. Through a 6-week course, junior and senior-level students are guided by a seasoned professor, who teaches transitional skills such as communication, online career building, social media and various others, which help bridge the gap between academia and the private sector.

“We consider ourselves a leader in the community and are very proud to offer the same support to others as we’ve received ourselves,” states Steve Futrell, President of Technology Solutions. “Our community has a special place in our hearts. As we reach greater levels of success, we feel great privilege in accelerating the lives of our youth with development programs like these.

We can’t just talk about the importance of leadership, we need to act like the leaders we wish to create.”

Technology Solutions has a unique business philosophy that is centered on giving. Where many of their competitors focus on maximizing individual benefit from one-off transactions, Technology Solutions focuses on improving the lives of their customers and building a relationship.

“Technology’s ultimate purpose is simple, to make our customers’ lives easier. That’s it.” Technology Solutions stresses the importance of establishing relationships that lead to long-term, mutual benefit.

“When we take a more expanded view, we can see that our *real* job is to become our customers’ trusted IT advisor. We aren’t in the business of selling phone systems and managed IT networks, we’re in the business of increasing our clients’ profitability, we just happen to accomplish that with technology. Our job is to help our customers’ businesses operate at maximum efficiency by leveraging futuristic technology to improve their productivity and over time that yields big results. When our customers grow, we grow.”

ABOUT TECHNOLOGY SOLUTIONS, LLC

Technology Solutions, L.L.C. is a leading provider of voice and data networking equipment and services for businesses within Michigan and across America.

Technology Solutions offers state-of-the-art technology to help its customers increase profitability, reduce communication costs, and give them a competitive advantage in their marketplace.

The company has quickly expanded to provide complete converged solutions incorporating voice systems, data systems, and structured cabling needs, saving customers significant time and cost, and enabling them to leverage their IT investment for future growth.
